

Splitter with Large Drill PD-7

<Patented>

Powerful Splitter and a large drill mounted on a bracket.

◆ Features

- All operations from drilling to splitting can be done in the cabin.
- You can conduct drilling and splitting tasks safely and continuously in the cabin without any danger and heavy work.
- By using hydraulic breakers, you can save even more time.
- No waiting time like non-explosive demolition agent. So you do not have to worry about the site when you leave the site while waiting for the demolition.
- No blasting. So you do not have to flee for safety. You can more easily make a schedule of your work.
