

Tilting Ultra Drills UDM

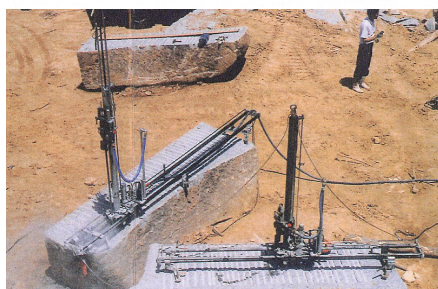

Ultra Drill Series

〈Patented〉

Automatic drilling machine developed for reducing pollution and workloads.

◆ Features

- Laborsaving: Once it is set, it drills automatically. The worker can do other tasks.
- After the set, it doesn't require man hands. It therefore helps preventing vibration disease and silicosis.
- Easy operation: The setting is easy. It performs precise drilling without intricate operation or advanced technique.
- Economical: Since all power sources are air, it can be used with existing equipment and doesn't need new equipment.

◇ Tilting and Rotating Ultra Drill UDM-R (Semi-automatic)

Semi-Automatic Ultra Drill with middle size drill equipped. This machine can adjust the angle freely, and is useful especially for narrow places or unstable places.

Model		Length	Drilling Diameter	Max. Drilling Depth	Cylinder Stroke	Width (mm)	Drilling Pitch	Specified Rod
UDM-R	A	2000-4000mm	28-48mm	1400mm	1500mm	456mm	Free	19H•22H•1.8m
	B	2000-4000mm	28-48mm	1100mm	1200mm	456mm	Free	19H•22H•1.5m

Model		Tilt Angle	Rotation Angle	Weight (kg)
UDM-R	A	±25°	±90°	Approx. 190
	B	±25°	±90°	

2008.7.10
